THE NAVAL REVIEW

An Appropriation of \$300,000 Made for It.

Sherman's Motion to Go into Executive Session Twice Defeated.

The Result Causes the Republican Members Great Surprise.

Turpin Seated for Alabama—The Whisky Trust Committee Recommends Reduced Duties—Pig Tin to Be Exempt.

By Telegraph to The Times. WASHINGTON, Feb. 28.—[By the Associated Press.] Senate.—The Naval Appropriation Bill was the first business taken up.

The first amendment that elicited discussion was one appropriating \$300,000 for the expenses of an international naval rendezvous and review. After considerable discussion the appropriation was agreed to, with the words "or so much thereof as may be necessary" added to it. The whole amendment was then agreed to, as was also the next amendment appropriating \$6800 for army expenses incident to the naval review.

The amendment for the construction of four light-draft protected gunboats, instead of one as provided in the bill, was agreed to without question.

Mr. Squire moved an increase in the appropriation for a dry dock at Puget Sound from \$225,000 to \$300,000. Agreed to. The bill then passed.

Mr. Sherman moved to go into executive session. The yeas and nays were demanded on the Democratic side, and the motion was disagreed to—yeas, 27; nays, 29. It was a strict party vote.

The result seemed to surprise the Republican Senators, several of whom went to the clerk's desk to examine the roll call, where they found their side defeated, simply because some Senators had not voted and had no pair.

The Senate then took up the House bill regulating the sale of intoxicating liquors in the District of Columbia. It passed—yeas, 41; nays, 15.

A second motion was then made to go into executive session, and for the second time the motion was defeated—yeas, 80; nays, 32. The Democratic vote in the negative was a compact one, and there was one defection on the Republicans side, Stewart of Nevada. The two Populists, however, Kyle and Peffer, voted with the Democrats.

The Agricultural Bill was then taken up and passed with a few unimportant amendments. Adjourned.

House.—After agreeing to the conference report on the Diplomatic and Consular Appropriation Bill the House proceeded to the Alabama contested election case of McDuflie vs. Turpin, the majority report being in favor of Turpin, the sitting member.

After a debate of some length, Turpin, the sitting member, was declared entitled to his seat by a vote of 188 to 62.

The Judiciary Committee of the House adopted the report of the sub-committee investigating the Whisky Trust. The report recommends that the duty on imported liquors be reduced from \$2.50 to \$1 per gallon, and that the tariff on all goods be reduced whenever it is found they are being influenced by trusts or combinations. It also recommends that rectifying establishments be made subject to Governmental supervision and that all compounded goods be stamped to show the components.

The Republicans in the committee object to the tariff feature of the report and will file a minority report on that point. They deny that the distillery and cattle-feeding company of the Whisky Trust, so called, is a trust.

On motion of Mr. Springer the bill passed (without the slightest opposition) providing that after July 1, 1893, pig tin be exempt from duty.

On motion of C. W. Stone, Pennsylvania, the bill passed establishing a standard gauge for ships and plate iron and steel. An amendment was adopted, on motion of Mr. Springer, providing that nothing in the bill be construed to increase the duty on any imported article.

Unfinished business was, on motion of Mr. Breckinridge of Arkansas, to suspend the rules and pass the bill for the relief of William Brown. No quorum voting the House adjourned.

PACIFIC MAIL COMPETITION.

Arrangements Made With the Panama Railroad by the New Company.

WASHINGTON, Feb. 28.—[By the Associated Press.] Mr. Cromwell, attorney for the newly-organized North American Navigation Company, said this afternoon a contract had been entered into on Saturday between his company and the Panama Railroad Company for the transportation of passengers and traffic between the Atlantic and Pacific coasts in competition with the Pacific Mail.

There was no guarantee of any fixed sum per month from the steamship company to the Panama Railroad, but there was an agreement on rates and that all business shall be obtained which can be secured. The line will begin full operation on March 15, when the first vessel will sail from Panama to San Francisco. The first vessel under the name of the new Columbia line sailed from New York to Colonia on the 15th inst. The new company will start with two steamers on each coast, and the number will be increased as fast as the traffic makes it desirable.

Pending Claus.

WASHINGTON, Feb. 28.—Secretary Foster of the Treasury Department has prepared for submission to Congress a reply to the resolution setting forth that the total claims pending in his department, including the direct tax and tonnage tax, amount to \$174,821,000, less \$8,000,000, the estimated amount allowed by Congress. He recommended that the so-called Bowmen act, which allows such claims to be referred by Congress to the Court of Claims for adjustment, be repealed.

THE VICE-PRESIDENT-ELECT.

His Arrival at Washington is Greeted with Great Rejoicing.

WASHINGTON, Feb. 28.—[By the Associated Press.] Vice-President-elect Stevenson arrived at the National Capital at 6 o'clock this afternoon.

The arrival of the first member of the new Democratic administration was made the occasion of great rejoicing. Loud cheers went up from the assembled crowd as the gaily decorated train of seven cars rounded the curve near the station. A committee at once boarded the special car of the Vice-President, and when a moment later, Stevenson appeared, leaning on the arm of Col. G. Barrett, chairman of the General Inaugural Committee, loud cheers were given.

Mr. Stevenson, escorted by J. L.

Norris, chairman of the Executive Committee, followed, and the whole party at once entered carriages and were driven to the Ebbitt House.

After arrival at the Ebbitt House the party were given a few minutes' rest, and, after dinner, there was an informal reception. Congressman Springer and nearly all of the Illinois delegation called early, and later in the evening scores of Congressmen and prominent people from all parts of the country called to pay their respects to the Vice-President-elect.

RAILROAD MAGNATES.

They Meet to Form a New Organization Governing Freight Rates.

SANTA BARBARA, Feb. 28.—[By the Associated Press.] A party of railroad officials arrived this evening to attend the conference here tomorrow.

The Northern Pacific, Great Northern and Canadian Pacific are not represented, and probably will not be. The roads represented are the Southern Pacific, by Richard Gray, general traffic manager; C. F. Snurr, general freight agent; The Atchison, Topeka and Santa Fe, W. A. Biddle, assistant freight traffic manager; The Atlantic and Pacific, W. A. Bissell, general freight agent; The Chicago, Rock Island and Pacific, W. M. Sage, traffic manager; John Sebastian, general passenger agent; F. W. Thompson, general agent; The St. Louis and San Francisco, F. D. Russell, general freight agent. Other representatives are expected.

W. A. Bissell said tonight that the object of the meeting was to effect an organization to meet the freight rates of the Northern roads and clipper lines. The Northern lines have been invited to join the association, but had not sent representatives.

Bissell makes a minority report, in which he recommends that Johnson be brought before the bar of the House, there to be severely censured by reason of his action before taking the oath of office.

STATE LEGISLATURE.

The Senate Passes the Reassessment Bill—The Railroad Commission.

SACRAMENTO, Feb. 28.—[By the Associated Press.] The Carlos Pacheco, which has just arrived from San Quintin, brings some additional facts concerning the capture of the Portuguese fishing schooners Neptune and Faun there, and the schooners Laura and Santa Cruz. They were anchored just inside of the harbor, where the crews were surprised by firing from the shore. The Laura and Santa Cruz shipped their anchors and chains and sailed off, but the Neptune and Faun could not get underway. The captured boats have about one ton of salted fish each, and are still at San Quintin. Six sailors were taken on the Pacheco to Ensenada last night. The difficulty will be settled there, and the schooners will probably be sailed up to that place.

Queen's Drawing-room.

LOXDON, Feb. 28.—The weather was cold and clear today and the sunshine gave a cheerful air to the surroundings of Buckingham Palace. It was excellent weather for the drawing-room, held by Her Majesty, Queen Victoria, assisted by her daughter, the dowager Empress Frederick, Princess Beatrice and other members of the royal family. About three hundred persons were present at Her Majesty's. All the members of the American Legation were present.

The Welterweight Match Postponed.

NEW ORLEANS, Feb. 28.—The Ryan-Dawson match was postponed until the night of the 9th of March on account of an accident which happened to Ryan's ankle while boxing last Sunday for a number of friends who visited the American welterweight at his training quarters.

The Pope Angry.

LOXDON, Feb. 28.—A Central News dispatch from Rome says that the Pope was greatly displeased by the abandonment of the American pilgrimage. He attributed the abandonment to the disputes between Archbishop Satolli and the American bishops, and has ordered an inquiry.

He Held for Mutilation.

SAN FRANCISCO, Feb. 28.—The Coroners' jury held an inquest on the body of Billy Miller, pugilist, killed in a fight with Dal Hawkins. The jury found that Miller came to his death from blows inflicted by Hawkins, and recommended that the latter be held for manslaughter.

Northern Pacific Affairs.

CRIMINAL OPERATION.

The Coroner's Verdict in the Maggie Manzon Case.

NEW YORK, Feb. 28.—[By the Associated Press.] The Coroner's inquest into the death of Maggie Manzon, who died from a criminal operation, was concluded today.

Joseph Manzon, brother of the dead girl, testified that he was with his sister on the day she died. A short time before she expired he said: "Now, Maggie, tell me the truth." She said that Florence Donovan was the father of her child and furnished the money for malpractice upon her.

The jury's verdict is to the effect that Miss Manzon died from septicemia, resulting from a criminal operation performed by Sarah B. Chase and L. F. Diemer, and that Florence D. Donovan is an accessory before the fact. Donovan was ex-State arbitration committeman of New York.

The two women doctors have been locked up and Donovan has been held on \$10,000 bail.

The Full Report Will Not Be Made Public Before Thursday.

Legislative Proceedings—The Reassessment Bill Passes the Senate—The Railroad Commissioners—Bills Signed.

By Telegraph to The Times.

SAN FRANCISCO, Feb. 28.—[By the Associated Press.] A special from Sacramento says the report of the Assembly committee appointed to investigate the charges brought against Assembeilman Johnson of Santa Clara, by Railway Commissioner Rea, will not be made public until Thursday.

Financial Conference.

WASHINGTON, Feb. 28.—Coming Secretary of the Treasury Carlsile, fresh from visit to Mr. Cleveland, had an extended conference with Secretary Foster this morning on the finances of the country.

Thompson, general agent; The St. Louis and San Francisco, F. D. Russell, general freight agent. Other representatives are expected.

They find further that Johnson, absolutely refused to be a party to Rea's proposal.

Hendrickson of San Francisco will file a minority report completely exonerating Johnson. He will not concur, however, as to Railway Commissioner Rea. Bulla of Los Angeles, a Republican, concurs with Hendrickson in exonerating Johnson, but as to Rea he concents that the grand jury of Santa Clara county should take action.

Bissell makes a minority report, in which he recommends that Johnson be brought before the bar of the House, there to be severely censured by reason of his action before taking the oath of office.

STATE LEGISLATURE.

The Senate Passes the Reassessment Bill—The Railroad Commission.

SACRAMENTO, Feb. 28.—[By the Associated Press.] The Anti-salvage Bills came up for reconsideration, and Mr. Burke spoke against the bill. No action was taken. A number of appropriations bills were passed.

In the afternoon the Reassessment Bill was taken up for the third reading.

Mr. Burke moved to amend by making reassessment begin in 1875 instead of 1884. Rejected by a vote of 22 to 18.

Mr. Ostrom offered an amendment that all suits now pending be dismissed, which was also rejected by a vote of 24 to 11. The bill was then ordered to the printer.

The following are among the bills passed: Assembly bill to build a road to Yosemite; making it a felony to sell liquor to habitual drunkard and Indians; act to amend section 1208 of the Code of Civil Procedure, relating to certain items for salaries and wages to persons preferred in cases of executions and attachments; authorizing the Western Union Telegraph office to prevail among the employees of the Western Union Telegraph office this afternoon, during a small fire, which broke out on the second floor of the building. During the rush from the operating-room Miss Alice Walsh was pushed down the stairway and taken home unconscious. Several other girls fainted, and it was some time before the panic was allayed.

*Aggregate gain for the month over February, 1892, 50,195 copies.

We call attention to the fact that the net daily circulation, the unsold copies being deducted from the daily average.

A marked and significant interest is shown by tourists and visitors (who are now present in Los Angeles by thousands) in good descriptive literature relating to Southern California. All our editions of the 28-page Columbian Number have been exhausted, and more copies are called for, both in person and by mail. Last Sunday's Times, which contained a quantity of local descriptive matter, has been purchased in large numbers for mailing abroad, and a second edition was required. Of the Kite-shaped Track description more than 30,000 copies, first and last, have been printed and distributed, and copies are scarce. These facts go to show, in some measure, the keen interest that is felt, both here and abroad, in the fair land of California del Sur.

AMUSEMENTS TONIGHT.

AT THE OPERAHOUSE—Candy. (Maline.)
PARK THEATER—The White Slave.

The city election in San José will not take place until April 10, but already the political p. has begun to b.

The eccentric New York Sun is always firing rocks into the Democratic camp. Its latest pun on a name is a reference to the New Secretary of the Interior as "Hoax Myth."

The death of Gen. Beauregard leaves only one of the full generals of the war on the Confederate side, E. Kirby Smith. Gen. Beauregard had only two superiors in rank, Robert E. Lee and Joseph E. Johnston. In the lottery business he had no superior.

The Home-rule Bill is defeated and Gladstone carries out his threat to dissolve Parliament and appeal to the country on the abolition of the House of Lords. Great Britain will experience a great political upheaval. The outcome of that controversy might land the nation a good deal nearer repudiation than the present home-rule promises.

It is easily to be understood how peoples who sanctioned such things by public laws and in public festivals for the good of the commonwealth should not be particular about drawing the lines of propriety about their art. They did not understand morality and decency as we understand it now. In some respects they were almost as thoroughly the children of nature as the North American Indians or the aborigines of the South Sea Islands.

Now we wish to inculcate this which we believe to be sound doctrine. It is not in human nature to adopt ideals, and cherish them, and form ambitions upon them, and take them into the very life, without imbibing a great deal of the spirit which produced those ideals. If the modern world must take up Grecian and Roman nudity and cherish it as the very acme of art, then the modern world will soon come to idealize the manners and morals and habits of thought of the people who originally produced that art. Why should we copy the customs and ideals of the ancient Greeks and Romans any more than those of the South Sea Islanders? Both are away behind the standards of our nineteenth century civilization.

Mrs. Frona Eunice Wait and many other good people of San Francisco will no doubt be surprised when they learn of another project in the same category with their own which is shortly to be inaugurated by Prof. Nimbletoe, the celebrated terpsichorean artist of their city. He proposes to revive the ancient Roman festival for the encouragement of marriage. Now, they need not be shocked at this thought they are surprised. It is all to be done with suitable concessions to modern conventionality. It is to be very private and very select. None but true artists and people of the highest artistic instincts are to be present. The participants are not required to be entirely nude, but it is understood that the less drapery they wear the better. The affair is to be strictly classical, and the greatest attention will be given to carrying out ancient details. Every effort will be made by Prof. Nimbletoe and his corps of patronesses to keep out those vulgar modern personages, the world, the flesh and the devil. If Mrs. Frona Eunice Wait has not yet received her invitation, it is an oversight which shall be corrected at once. It is hoped that she will be able to attend in the character of the Greek Slave. She will then be able to note with satisfaction the complete, or almost complete, renaissance of ancient art and mannequins to which she has in her way contributed so successfully.

We trust that Mrs. Frona Eunice Wait will not give the cold shoulder to this classical project of Prof. Nimbletoe. It could not possibly jar her tender sensibilities more than this invitation which she sends to the modest girls and virtuous women of California outrages the world, the flesh and the devil. If Mrs. Frona Eunice Wait has not yet received her invitation, it is an oversight which shall be corrected at once. It is hoped that she will be able to attend in the character of the Greek Slave. She will then be able to note with satisfaction the complete, or almost complete, renaissance of ancient art and mannequins to which she has in her way contributed so successfully.

We trust that Mrs. Frona Eunice Wait will not give the cold shoulder to this classical project of Prof. Nimbletoe. THE COURTS.

Sheriff Cline Cited to Appear Before Judge Van Dyke.

A Matter of Five Hundred Dollars in His Custody in Dispute.

The Bean-Stoneman Damage Suit Drawing to a Close.

Three Men Charged With Malicious Mischie夫 by Ralph Rogers Promptly Discharged—A Ballona Bat-tory Case—Court Notes.

In Department Four yesterday afternoon Sheriff John C. Cline appeared before Judge Van Dyke in response to a citation issued, requiring him to show cause why he should not pay over to B. K. Berlin, the intervenor in the case of the East Side Bank vs. E. B. Woolley et al., the sum of \$580.60, the amount received by him from Isaiah Wickerd on January 20 last, in full satisfaction of a judgment obtained by Woolley against him.

The matter was argued at some length by counsel for the various parties to the controversy, and at the close of the argument was ordered to be submitted on briefs, to be filed in five days respectively.

An application for a writ of mandamus was also made in connection with this case by W. H. Clark, one of Woolley's creditors, who seeks to compel Sheriff Cline to pay the money over to him, and this matter was also ordered submitted upon briefs.

THE BEAN-STONEMAN DAMAGE SUIT.

The trial of the case of C. F. Bean vs. Mrs. Mary O. H. Stoneman et al., an action to recover damages alleged to have been sustained by reason of the shutting off of plaintiff's water supply, was resumed before Judge Shaw and a jury in Department Five yesterday. The plaintiff closed the case, and four witnesses were examined for the defense during the morning session, but owing to the absence of a material witness the defendants were unable to proceed after the noon recess, and the matter went over until this morning upon the understanding that they paid the jurors' fees for the day.

ALL WERE DISCHARGED.

A Pasadena dairyman named Stolberg and three of his employees appeared before Justice Bartholomew in the Township Court yesterday for trial upon the charge of malicious trespass preferred against them by Ralph Rogers of Garvanza, who accused them of having deliberately driven a herd of eighty-three cattle over his barley fields, but it being shown that there was no malice on the part of the defendants whatever, and that the damage, if any, was accidentally done, all four were discharged.

COINED BY HIS FORMER FRIEND.

A complaint was filed in the Township Justice's court yesterday by Eugenio Miranda of La Ballona, charging B. Esquis with having committed the crime of battery. The complainant, whose face was sadly disfigured that Esquis over him some money, but apparently refused to pay the debt, and that, as a last resort, he instituted suit in a justice's court against his neighbor to recover the money. Esquis took umbrage at this action, and when the men met at Ballona on Monday night a quarrel ensued, and Miranda was severely cowhied by the man he had befriended.

Court Notes.

Letters of administration were granted by Judge Clark yesterday to Dan M. Walsh in the matter of the estate of Daniel Walsh, deceased, who died on January 28 last, the administrator being required to furnish bonds in the sum of \$800.

The will of F. J. Tolles, deceased, who died on December 18 last, was admitted to probate by Judge Clark yesterday, and Mrs. Helen Adelia Tolles was appointed executrix thereunder, her bond being fixed at \$2000.

The trial of the suit instituted by the Baker Iron Works against the Citizens' Ice Company to recover a balance alleged to be due on three boilers, which defendant claims were defective, was concluded before Judge Clark and a jury in Department Two yesterday so far as the taking of testimony is concerned, and the matter went over until this morning for argument.

Judge Clark overruled the demurrer to the answer in the case of the Broad-Way Bank vs. R. N. C. Wilson et al., but sustained that of the cross-complainants, after denying plaintiff's motion to strike that document out in its entirety, yesterday afternoon.

The case of Reuben Hatch et al. vs. C. M. Wells et al., an action to recover money alleged to be due on a note, came up for hearing before Judge Wade yesterday upon demurrer, the matter at the close of the argument being submitted to the Court for decision.

When the case of Alex J. McLellan vs. Charles McCarthy et al., an action to recover \$1249.01 alleged to be due on a deficiency judgment, was called for trial by Judge Wade in Department Three yesterday morning plaintiff was not ready and asked for a continuance, but the Court denied the motion and ordered the matter dismissed for want of prosecution.

John Scherer, a native of Switzerland, and George Baker White, a native of Scotland, were duly admitted to citizenship of the United States yesterday upon producing the necessary proofs of residence here and taking the requisite oaths of renunciation and allegiance.

Judge McKinley rendered his decision yesterday morning in the cases of E. W. Webster vs. the San Pedro Lumber Company, and California Loan and Trust Company vs. James Hammel, denying the motion for a new trial in each instance.

The defendants in the libel suit instituted by ex-County Treasurer Banchury against J. D. Lynch and J. J. Ayers, the proprietors of the Herald, were granted five days further time by Judge McKinley yesterday morning within which to file their answer therein.

THE SUPERVISORS.

A Brief Session to Close Up Unfinished Business.

Le Compte Davis, Esq., to succeed Mr. Dubois as Deputy District Attorney—Additions to the Indictment List.

The Board of Supervisors held a short morning and afternoon session yesterday in order to close up unfinished business and attend the regular matters set for hearing. All the members were present.

On the application of Mark Phelps for a saloon license at Riviera time was set for hearing on March 14.

No protests being offered, the petition asking that certain lots in the Whitson subdivision on Boyle Heights revert to acreage, it was ordered that the same be granted.

The bond of T. W. Lyons on the license to run a saloon at Knolls was read, and, being in regular form and with satisfactory sureties, was approved.

D. R. Lilly and wife, residents of Pomona, were placed on the indigent list for \$15 cash monthly.

C. H. Howland sent a communication offering to furnish prices for the lighting and heating, by gas and electricity, of the Courthouse and all county buildings.

On motion of Supervisor Forrester, the clerk was instructed to invite Mr. Howland to furnish such proposal.

From the District Attorney's office was also received a notification of the appointment of Le Compte Davis as deputy district attorney, at a salary of \$100 per month. It was understood that Mr. Davis was to assume the position left vacant by the resignation of Mr. Dubois.

Map-Maker Moore asked that the four hours' extra time be allowed his department during the month of March, as it had been during February. Assessor Gray certified that the extra time was absolutely necessary for the preparation of maps now in progress. It was ordered that the request be granted.

Late in the afternoon the board listened to a statement made by Sheriff Cline in regard to the feeding of county prisoners. Mr. Cline explained the matter from his standpoint very clearly. No definite action was taken, however, and the board finally adjourned after some general discussion.

GROVER HEARD FROM.

Why the President-elect Was Not at the Redondo Banquet.

The following letter, received by President Dan Freeman, will explain why President-elect Cleveland was not at the Chamber of Commerce banquet at Redondo Saturday night:

MILLS BUILDING, NEW YORK CITY, Feb. 15, 1893.

D. Freeman, Esq., president Los Angeles Chamber of Commerce, was very much gratified to receive the kind invitation from the Los Angeles Chamber of Commerce, which came to hand this morning.

I suppose you hardly expect me to accept this invitation, since the event to which you invite me occurs but a week before another engagement which I had already made for March 4. The only conditions upon which I could accept your invitation, all circumstances considered, would be by canceling my other engagement for a week later, and I know you will not accuse me of underestimating the importance of the pleasant opportunity which you offer me. I would like to keep the previous engagement and to ask you to accept, instead of my presence, my most cordial thanks for this kind remembrance, and my hearty good wishes for the prosperity and usefulness of your organization. Very truly yours,

GROVER CLEVELAND.

Library Exhibit for the World's Fair.

A letter has been received at the City library from Chairman Charles A. Nelson, of the comparative library exhibits at the World's Fair, asking that an exhibit be sent from the Los Angeles library as a representative one of such institutions of the West.

The exhibit will include photographs of the rooms, a ground plan of the library, illustrations of the methods of binding and other objects of interest connected with it. The assistant librarian, Miss Adelaide R. Hesse, is now preparing the work, which, it is expected, will be sent from here about April 1.

The defendants in the libel suit instituted by ex-County Treasurer Banchury against J. D. Lynch and J. J. Ayers, the proprietors of the Herald, were granted five days further time by Judge McKinley yesterday morning within which to file their answer therein.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES,
LOS ANGELES, Feb. 28, 1893.

San Francisco advises report the fresh fruit market again heavily supplied with oranges, yesterday's arrivals being the heaviest of the season. Seedlings are quoted lower. California lemons are firmly held and Mexican limes are as stiff as ever. The vegetable market is steady under a moderate demand. Potatoes are firm. Choice onions are steady.

The butter market is weak under heavy stocks. Eggs are weaker, with free arrivals. California cheese is plentiful and prices are easier.

NEW YORK, Feb. 28.—The Post's London special says: "Markets are quiet. Americans are fat, especially Erles, on premature cables of a probable receivership. On cabled inquiries this rumor was contradicted by the president, and Erles bounded up. Americans closed generally firmer."

New York Stocks.

NEW YORK, Feb. 28.—The stock market developed today a decidedly strong temper, and material advances were scored all over the list. Only one stock among the prominent showed a net loss for the day, and that amounted to only 1/4 per cent. The easier condition of the exchange market and the practical cessation of gold exports were the underlying causes of this change in temper, but the day was marked by an absence of the late heavy pressure to sell.

Government bonds closed dull and steady. NEW YORK, Feb. 28.—MONEY.—On call, firmer; closed offered at 5 per cent.

PRIME MERCANTILE PAPER—\$868 per cent.

SHIPPING EXCHANGES—Quiet and easy; 60-day bills, 4.85%; demand, 4.87%.

ORANGE COUNTY.

The Junior World's Fair Visited by Five Thousand People.

Regular Weekly Meeting of the Santa Ana Board of Trade—Organization of a Chamber of Commerce Recommended.

SANTA ANA.

The Orange county Junior World's Fair closed yesterday, after having been open for six days, during which time, it is safe to say, that not less than five thousand people visited the exhibition rooms. The showing of the wonderful productions of this county has opened the eyes of residents of this country, for there were many expressions of astonishment from our own residents. The following statement was made yesterday: Peatland, S. Murdoch, who has been a member of the Junior World's Fair, has a

large representative interest of the citrus fruit industry at Riverside, that some joint and harmonious action should be taken to maintain fair and reasonable prices, and govern the distribution to the market, to prevent a glut in the market and the consequent loss of profits.

The representative interest finally organized an association for the purpose as stated, and were willing at their own risk to throw their shield of protection around their neighbors, who were unwilling to join and harmonize with them, in the natural belief of time, that the dealers in the industry would not have doubt been realized, but for a deep-laid scheme on the part of outside dealers and growers, which was worked in the following manner:

The association having organized itself to maintain certain prices, say \$1 on navel and \$1.75 on seedlings, these outside dealers immediately started in contracting with Eastern firms to furnish them navel at \$2.90 and seedlings at \$1.65 or less, and further contracted that these dealers pay less than association prices per box less than association prices should continue during the season, regardless of the amount of product to be supplied by the association, so that as soon as it was realized that the scheme had not been successful, the association prices had been reduced to \$2.50 on navel and \$1.50 on seedlings, these Eastern firms held in their hands contracts with the association, and \$1.60 for navel and \$1.40 for seedlings. There was no limitation to this conspiracy, and its results were not, only disastrous to honorable members of the association, but permanently so, as when these outside dealers failed to supply the demand from Riverside product, they could go to other districts and find a market.

This belief would not have doubt been realized, but for a deep-laid scheme on the part of outside dealers and growers, which was worked in the following manner:

Such a scheme of affairs is not real

surprising for the Chicago stockholders, nor affords much hope for their getting justice in such a country. The failure of the Los Angeles cable road was due, therefore, to any fault of Mr. Holmes or Mr. Crank, but to the bungled work of the electrical company, backed up by the Council of Los Angeles and the Legislature at Sacramento.

Only Gets One Salary.

Secretary Platt of the Board of Education wishes to correct the impression

which may be gathered from an article published in a morning paper yesterday.

The article in question states that Mr. Platt is now receiving a salary of \$110 per month, \$50 as assistant to the Superintendent of Schools and also \$60 as secretary of the Board of Education.

The inevitable result was that as long as association prices were maintained these outside dealers and growers had a monopoly of the trade at prices only a fraction less than association prices, and association members were but permanently so, as when these outside dealers failed to supply the demand from Riverside product, they could go to other districts and find a market.

The local bicyclists close their engagement at the People's Amphitheater on Friday night, and, as this is their last appearance here, whence they go to the World's Fair, they are attracting throngs of visitors in conjunction with the circus and special features.

The amount collected for the fund for liquidating the debt on the Temperance Temple yesterday was \$100, which now leaves us \$2994.74 to be paid by March 7. The ladies behind this movement are working faithfully, and from present indications will raise the desired amount by the date named.

A glance at the transfers of real estate published elsewhere will show that if the boom has not really "struck," something very like it has. Yesterday was a red letter day in the County Recorder's office, over one hundred instruments having been filed, and a record of 147 contracts made, where he can be found when in the city. Mr. Tinker has been given the superintendence of the mission work in Arizona, in connection with Southern California, for the present.

RAILROAD AFFAIRS.

San Francisco Speculating on the Latest Isthmus Deal.

The Contract Between the Navigation Company and Railroad.

A General Lowering of Freight Rates Looked for.

A New Time Table on the Southern Pacific for Local Trains—Discontinuance of Transfers to the Temple Street Cable.

San Francisco merchants and business men generally are looking forward with a great deal of hope and not a little speculation, to the changes which will be brought about as a result of the newly-signed contract between the North American Navigation Company and the Panama Railroad Company. Not alone do they believe the compact will result beneficially to San Francisco, but also that a general lowering of freight rates from Eastern points will be effected throughout the State. Commenting on the subject the San Francisco Chronicle of Monday says:

The news that the contract of the North American Navigation Company with the Panama Railroad Company has been finally signed will be welcome to New York next week, will be welcome to San Francisco merchants. It means that the day of trans-continental railroad domination of the traffic by the Isthmus has gone by.

Whether cheap rates or no combination will be made by the two companies is entirely uncertain. If the members of the Trans Pacific Association are as fully in control of the stock of the new company as has been reported, it means another long step in the commercial emancipation of San Francisco. It will give an open competing line of coast to coast, will form the overland roads to make a heavy reduction in freight rates to the Coast or vastly improve their service or lose the business. The steamer line can lay down freight from New York in about thirty days, and the fast-freight line of the transcontinental roads will exceed that time.

A communication from the Police Commissioners about the bad condition of the police station was read and referred to the Committee on Public Buildings.

The lease between George McLain and the city for a lot for a corral for \$25 per month was approved.

On the report of the Land Committee a quit claim was granted Mrs. Agatha Schilling for a piece of land in the Requena subdivision; also a quit claim deed to Mrs. M. W. Sabichi, reserving the privilege of repairing sanjas and the land.

A communication was read from the Building Inspector asking for his deputy to assist him in his duties. Referred to the Building Committee after debate.

On motion of Councilman Nickell, the Street Superintendent was instructed to cut the curb and open Hoff street, East Los Angeles.

On motion of Councilman Pessell, the City Clerk was instructed to readvertise for bids in cases where leases of engine-houses have expired, the lease to be for two years, with the privilege of three.

Councilman Pessell stated that it had been called to his attention that considerable garbage was being dumped on Orange avenue, below Washington street, he believed by Chinamen. On the gentleman's motion, the Chief of Police was instructed to arrest any persons caught dumping garbage at the place mentioned.

President Tread called attention to an unfenced gravel pit on Twenty-third street, between Grand avenue and Hope street, and moved that the Chief of Police be instructed to arrest the owner of the lot on which the pit is located. This motion was amended so as to make it general, applying to all unfenced gravel pits and excavations, in which form it prevailed.

The Sewer Committee reported, recommending that the bid of Frank C. Young, for the construction of sections 4-A and 6-A of the outfall sewer, for \$1,088 for the first and \$27,980 for the second, be accepted. Adopted.

The City Clerk was instructed to advertise for bids for the construction of sections 8, 8-A and 10 of the outfall sewer, the work to be completed by September 1, 1893, provided funds for the right-of-way over the new route can be obtained.

The committee reported that the outfall sewer contractors who have been working their men more than eight hours per day had agreed to live up to the letter of their contracts, and not work their men more than eight hours. Adjourned.

THE DIAMOND ROBBERY.

No Clew to the Thieves Who Stole Mrs. Woodworth's Diamonds.

There are no new developments in the Woodworth diamond robbery. Mrs. Woodworth was sick over her loss, yesterday, so she explained to a Times reporter who called upon her. Mrs. Woodworth said the Times had published all the facts connected with the robbery; that no clew had been found to the thieves, and she feared there would be.

"Whoever did the deed certainly knew the house well and were cognizant of the place where the diamonds were kept," said Mrs. Woodworth.

Matches were scattered all over the floor, which goes to prove that the parties had no lamp—hence were not adepts at the business. The room was not so badly disarranged, which is another straw toward that theory.

Mr. de Camp, the son-in-law of Mrs. Woodworth, also said there were no new developments. The whole affair seems to be shrouded in mystery, and may, as Mrs. Woodworth says, remain so.

They Are Selling Out to Quit Business.

Buyers of Clothing and Gents' Furnishings Can Get Goods This Week at Their Own Prices.

Whoever buys clothing this week will have a picnic if he goes to the Pitcher & Gray Co.'s store. The stock is still in pretty good shape, and there have not been any sales since the last reduction.

One can buy an entire outfit for man or boy for less than a pair of pants cost in some places. And the goods are nice; nothing shoddy, unseasonable or unfashionable about them, but precisely the kind that are carried only in first-class houses. There hasn't been a chance like it offered for a long time, and those who buy it when it is put off are going to regret it when they hear of the bargains they have missed.

The Pitcher & Gray Co.'s store is 229 South Spring street.

HORSE-RADISH. Stephens, Mott Mar ket.

WALL-PAPER, paints, oils, etc., cheap 248 S. Main street. A. G. Godfrey.

SCRAP HEAP.

AN excursion party will leave for the East today over the Union Pacific.

A. D. Miller, a prominent railroad man of Fort Worth, Tex., is in the city for a few days.

W. H. Snedaker, general agent of the Denver and Rio Grande at San Francisco, arrived yesterday from the North.

T. H. Duzan, local representative of the Burlington route, is out of the city on a visit in the southern part of the State in the interests of the passenger lines.

They had also made a proposition to the Electric Company toward the consummation of a similar arrangement with them.
